PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in **full-stack web development** using the MERN stack. Skilled in building responsive applications and implementing **JWT-based authentication** for secure access.

TECHNICAL SKILLS

- **Programming languages :** c , java , javascript , HTML ,CSS
- **Framework / Libraries :** React , Node.js , Express
- **Databases :** MongoDB
- **Tools :** Visual Studio Code , GitHub , Vite , Canva

PROJECTS

- **React Portfolio Website** - Developed a fully responsive personal portfolio website using React.js, featuring dynamic routing with React Router, a dark mode toggle, and a functional contact form. Implemented clean component-based architecture and modern UI/UX design principles.
- **Weight Tracker App** - Developed a full-stack MERN application to track daily weight entries with form submission, real-time chart visualization using Recharts, and persistent storage in MongoDB. Implemented restful APIs with Express.js and ensured a responsive UI using React and CSS.
- **Student Dashboard Web App** - Built a full-stack student management dashboard using React.js, Node.js, Express, and MongoDB. Implemented features to add and display student data dynamically with real-time updates and a responsive dark-mode UI.
- **Secure Authentication API** - Developed a RESTful API with JWT-based authentication to handle login, signup, and token validation. Implemented middleware for protecting private routes and verifying user roles.
Tech stack: Node.js, Express, JWT, MongoDB

EXPERIENCE

- I worked under the guidance of experienced developers from Google Developer Group Ranchi for 1.5 months, where I contributed to impactful projects and gained hands-on experience through collaborative learning .

EDUCATION

- **Marwari College , Ranchi**
B.Sc in Computer Science
